About the Street Rehab Program

The City of Cincinnati Department of Transportation and Engineering's Street Rehabilitation Program handles street resurfacing and significant curb repairs. This work includes grinding off the old roadway surface, resurfacing the pavement with new asphalt, and repairing/replacing curbs where necessary. Every Community in the City of Cincinnati will be targeted for roadwork on a three year rotation under the Street Rehab Program. The streets listed in this brochure are scheduled to be rehabilitated during the 2005 and 2006 construction seasons.

For more information on the **Street Rehabilitation Program** contact Dick Cline at dick.cline@cincinnati-oh.gov or at 352-6235.
